PROFILE

Software developer with 10+ years of experience building web platforms, backend systems and mobile apps. Strong in PHP/Laravel and Python, with experience on news and finance publishing platforms (BusinessDesk NZ, Goodreturns). Recently launched independent products in React Native and Swift, plus an ML-based prediction platform.

EXPERIENCE

Backend Developer

Mar 2024 – Jan 2026

QMAD Yazılım ve Kurumsal Çözümler Ltd. Şti.

- Led backend development of an enterprise Quality Management System (QMS) platform.
- Designed scalable services with PHP, Laravel and REST APIs.
- Improved performance, maintainability and overall system architecture.

Full-Stack Developer

Sep 2020 – Jan 2024

PlusClouds

- Built and maintained BusinessDesk NZ, a news and media platform.
- Backend with Laravel, MySQL, Redis and Neo4j; frontend components in Vue.js.
- Integrated Stripe, Mailgun, PublitIO and Coral Talk; managed Docker and cloud deployments.

Frontend Web Developer

Jan 2020 – Aug 2020

SMARTOVER

- Frontend development with React.js.

Software Developer

Nov 2018 – Dec 2019

DynamicASM

- PHP, HTML, CSS and JavaScript web applications; C# desktop tools for enterprise operations.
- Logo Tiger3 ERP integrations and industrial data collection from PLC devices.

Software Developer

Jan 2015 – Oct 2018

TEKNOBURSA

- Full-stack web applications with PHP and JavaScript.
- Python/Selenium automation tools and data collection workflows.

SKILLS

AI / ML

Python, CatBoost, scikit-learn, feature engineering, model inference, Whisper

BACKEND

PHP, Laravel, Python, FastAPI, REST APIs

FRONTEND

Vue.js, React, Next.js, TypeScript, HTML5, CSS3

MOBILE

Swift, SwiftUI, Kotlin, Jetpack Compose, React Native, Expo

DATA

MySQL, PostgreSQL, Redis, Neo4j, Meilisearch

DEVOPS

Docker, Git, Linux, CI/CD, AWS

OTHER

System architecture, web scraping, automation, ERP integrations, AI-assisted development

EDUCATION

M.Sc. Information Technologies

Sakarya University · 2022 – 2023 · GPA 3.75

B.Sc. Management Information Systems

Anadolu University · 2019 – 2022 · GPA 3.27

B.A. Visual Communication Design

Anadolu University · 2023 – 2026 · GPA 3.55

LANGUAGES

Turkish	Native
English	Intermediate
Bulgarian	Elementary

SELECTED PROJECTS

RoboGanyan

ML-based horse-race prediction platform · roboganyan.com · Python, FastAPI, MySQL, Next.js, gradient boosting

- Daily probability model built on historical race, jockey and trainer data with time-aware feature engineering.
- Deliberately excludes public betting odds so the model's view can be compared with the crowd's.
- Training and inference pipeline published through FastAPI and Next.js.

Güvercinim

Pigeon pedigree & breeding tracker · guvercinim.com · React Native, Expo, Firebase

- Cross-platform iOS/Android app for bird profiles, pedigree trees and breeding records.
- Google/Apple sign-in, subscriptions, testing and store releases.

LingoDuet

On-device real-time conversation translator (iOS) · Swift 6, SwiftUI, WhisperKit, Apple Translation

- Offline, privacy-first two-person translation: on-device speech recognition, translation and text-to-speech, Bluetooth headset support.
- Published on the App Store with ads and a Pro subscription; Android version in progress.

Goodreturns

Freelance · Finance & news publishing platform · PHP, Laravel, Nova, Vue.js, MySQL, Meilisearch

- Editorial CMS, media management, search, ad operations and AI-assisted content features.
